Baroque Repertoire List

Revised August 2023

This list is organized by levels. There are five. See the Rules and Regulations to place your student in the correct level for competition.

Level I: Baroque Early Intermediate

Level II: Baroque Intermediate

Level III: Baroque Late Intermediate

Level IV: Baroque Early Advanced

Level V: Baroque Advanced

Common and Other Sources

Editions and their codes listed below are sources to serve as reference when picking a selection. You do not have to use these sources. Any edition is allowed as long as it is complete and not reduced. Common Source codes and page numbers are provided for each selection in the level listings. There is an additional column marked "other sources" citing additional editions where there are multiple sources. For convenience, the selections are also listed by collection in the **appendix**. Only the first page of each selection is given. Be sure to check if your selection has more than 1 page.

The **Appendix** is located after the common source codes below

Adding Other Selections

Members may request that another selection be added to the list. This should be submitted the Spring before it is to be included. When submitting it, give the full name of the piece, composer, source(s), and level. If acceptable, The Festival Committee will approve it and announce the addition.
